

# Your Special Delivery Service Stockholm AB

Your  
**Special  
Delivery**  
Service

The Special Way Whether you need assistance with clinical trial logistics, drug returns or temperature sensitive cargo we know that timing, the correct packaging and handling is crucial for a successful outcome. Any mismanagement throughout the logistic-chain will not only jeopardize the safety of your product but also greatly affect the return of investment. Maybe you know exactly how your product needs to be transported and what documents are necessary, or perhaps you have no idea. Either way, we offer a broad knowledge, GxP compliance and experience of the best and most cost efficient alternatives and the correct documentation. We tailor and execute each shipping for each mission to secure a safe and always on-time delivery. We don't consider this an additional service as we simply don't know any other way, and this is why we don't charge extra for this. This is how our clients know us. Come strikes, come natural disasters or a seemingly impossible mission, they can trust we deliver. When others stand still, we move.

## **Description**

Your Special Delivery Service (YSDS) is a Swedish company niched towards prioritized special- and express shipments. We offer our customers an unmatched service level and assist them in all aspects of their shipments. As a fully independent actor in the transport industry we optimize each shipment to meet our customer's specific needs.
